EDUCATION

2021 - 2021

INCO ACADEMY

- Bootcamp, Information Technology

2020 - 2021

GREENWICH COLLEGE

- Diploma, Project Management

2010 - 2013

ANHANGUERA EDUCACIONAL

- Bachelor's degree, Information Systems
- Java 8 Essential Training
- Cybersecurity
- Python

TECHNICAL SKILLS

- **Programming Languages:** C# , JavaScript, Java Spring, Spring Boot
- **Frameworks:** .NET, ASP.NET
- **Database Management:** SQL
- **Web Development:** Web applications, RESTful APIs
- **Code Quality:** Clean, efficient, maintainable code
- Systems Analysis
- User Training
- Project Management
- Non-relational Databases
- Software Configuration Management

PROFILE

Full-Stack Developer with a solid background in designing, developing, and maintaining applications using JavaScript, TypeScript, and Java Spring Boot. Skilled in building robust web apps and RESTful APIs, with hands-on experience creating scalable, maintainable solutions. Eager to learn new technologies and adapt to evolving development practices. Strong team player with clear communication skills and a focus on delivering clean, efficient, and high-quality code.

WORK EXPERIENCE

Ethos Building - Melbourne VIC Australia

SEP 2024 - PRESENT

Systems Analyst/Developer

- Built Azure Functions in JS/TS to automate operations and improve system scalability.
- Developed UI with React, Redux, and Material-UI for better usability.
- Maintained backend APIs using Express.js and TypeORM for efficient data handling. Automated time-consuming tasks with Python scripts, cutting operational costs.
- Used Python (pandas, NumPy) for data analysis and internal reporting.

HydroTerra - Melbourne VIC Australia

AUG 2021 - PRESENT

Systems Analyst

- IoT Development
- Write python code to pull data from API to internal server, process data for the main system to read, and create graphs in the front-end.
- Automate server tasks using python. Such as email processing, SSL certificate checks, and alerts.
- Maintain, and improve current python Scripts in the server, to ensure data availability, update deprecated code and rewrite python Scripts to latest versions.
- Maintain AWS server and Company systems.

Accenture - São Paulo e Região, Brazil

JUL 2019 - DEC 2019

Senior Systems Analyst

- Integrated new technologies to meet area requirements.
- Mapped and automated activities with Python and Java.
- Built process documentation
- Maximised revenue and reduced costs implementing reports on Power BI for the board.

Damasio Educacional - São Paulo, Brazil

APR 2012 - JAN 2019

Systems Analyst

- Key member in integration Projects (SAP, Salesforce, Integers) working with development .NET and Java and contributing to process optimisation and cost-cutting.
- Implemented a system called (turnstile system) from scratch maximising the company's revenue.
- Participated in an e-commerce project which would result in projects that were worth AU\$200,000
