Additional information

Key Achievements

Assisted in Web Application Development:

- Collaborated with the development team to build a responsive web application using [ASP.NET](#) MVC and Entity Framework, contributing to an enhanced user experience and functionality.

Supported Cloud Migration Projects:

- Participated in the initial stages of migrating an on-premises application to Microsoft Azure, helping to improve application scalability and reduce operational costs.

Contributed to CI/CD Pipeline Implementation:

- Assisted in setting up continuous integration and continuous deployment (CI/CD) pipelines using Azure DevOps, aiding in streamlining the deployment process.

Area of Interest

- **Web Application Development:** Passionate about building dynamic and responsive web applications using [ASP.NET](#) MVC and Web API.

- **Cloud Computing:** Interested in leveraging cloud platforms like Azure to develop and deploy scalable applications.

- **Microservices Architecture**

- **Continuous Integration/Continuous Deployment (CI/CD)**
